# PETRAMIA

## STONES

### **Introducing PetraMia Stones**

**Engineered for beauty,  
performance, and safety**

### **The next-generation solution with crystalline silica free.**

PetraMia Stones is proud to present a new generation of engineered surfaces: a Crystalline Silica Free collection that merges cutting-edge technology, elegant design, and fabrication-friendly innovation.

Crafted with state-of-the-art technology, our collection offers safer, more efficient fabrication—without compromising on beauty or durability.

# COLLECTIONS

PETRAMIA  
STONES

Designed to meet the highest standards of the design industry, PetraMia is organized into four distinctive collections. From minimalist essentials to dramatic marble-inspired looks, each collection reflects our deep commitment to style, performance, and well-being:

## COLOSSALE Collection

Engineered for large-scale design needs, this category includes oversized slabs up to 138 x 79 inches. Ideal for expansive applications such as kitchen islands, feature walls, and seamless installations with fewer joints.

## ESTERNO Collection

Materials specifically designed for exterior use, built to withstand sun, rain, and extreme environmental conditions. This collection offers high durability and weather resistance, without sacrificing design and finish.refinement and visual depth.

## STAMPA Collection

An innovative line featuring printed surface designs, from soft and delicate patterns to bold and expressive visuals. This collection offers creative versatility while maintaining aesthetic refinement and visual depth.

## ELEGANZA Collection

Inspired by classic Italian marble—especially the sophisticated Calacatta look—this category showcases high-definition veining and flowing natural patterns, perfect for luxurious interiors seeking authenticity and sophistication.

## ESSENZA Collection

A refined selection of essential solid tones designed to bring timeless simplicity and modern elegance. Ideal for minimalist, clean design concepts where color harmony and balance are key.
